Low word count

Project name: www.diginexastore.com

Detailed Issue Description

About this issue:
This issue is triggered if the number of words on your webpage is less than 200.
The amount of text placed on your webpage is a quality signal to search engines.
Search engines prefer to provide as much information to users as possible, so pages with longer content tend to be placed higher in search results, as opposed to those with lower word counts.
For more information, please view this video
How to fix:
Improve your on-page content and be sure to include more than 200 meaningful words.
